

SÓLODOS EN DANZA / COSTA RICA RELEASE

Costa Rica, March 11, 2020

Dear friends,

The Ministry of Health of Costa Rica, in coordination with the General Emergency Commission, informed on March 9 that as of March 10, events and mass concentration activities, both free and paid, are canceled, the objective of all these actions is to mitigate the transmission of Coronavirus COVID-19. The cancellation of events applies by decree for any activity of concentration of people (whether organized for commercial or free purposes), such as concerts, public shows, cantonal parties among others.

By Decree of Law we are forced to suspend the activity of **March 14 in the Barva de Heredia Park, Contest and Awards Gala**, not being able to perform it publicly. The Creation Contest will be held behind closed doors, without an audience. We will be communicating the results through our Facebook page and our website.

From the organization, we always appreciate your unconditional support and hope that the situation will gradually return to normal.
